Located in the heart of Riyadh, TORCH HOLDERS LEARNING CENTER a perfectionist, customer-experience driven, dynamic learning hub dedicated to transforming learning into a daily life ritual. Our programs and courses, whether in-person or remotely, are designed for learners of all ages as we blend technology, creativity, and real-world experience to foster a culture of curiosity and growth. Through flexible programs, collaborative spaces, and access to leading experts, we empower individuals to explore new skills and knowledge beyond traditional classrooms.

Whether advancing careers, pursuing passions, or discovering new interests, we inspire the community to make lifelong learning a natural and essential part of everyday living

It is with great pride and excitement that I welcome you to our new learning hub, an innovative space created with one purpose at its heart: to make learning a natural and joyful part of everyday life.

When I first envisioned this idea, I wanted to build more than just a place where classes are held. I imagined a living, breathing community where curiosity is encouraged, creativity is celebrated, and discovery never ends. Our learning center is designed to inspire people of all ages and backgrounds to see knowledge not as an obligation, but as a companion in their daily journey.

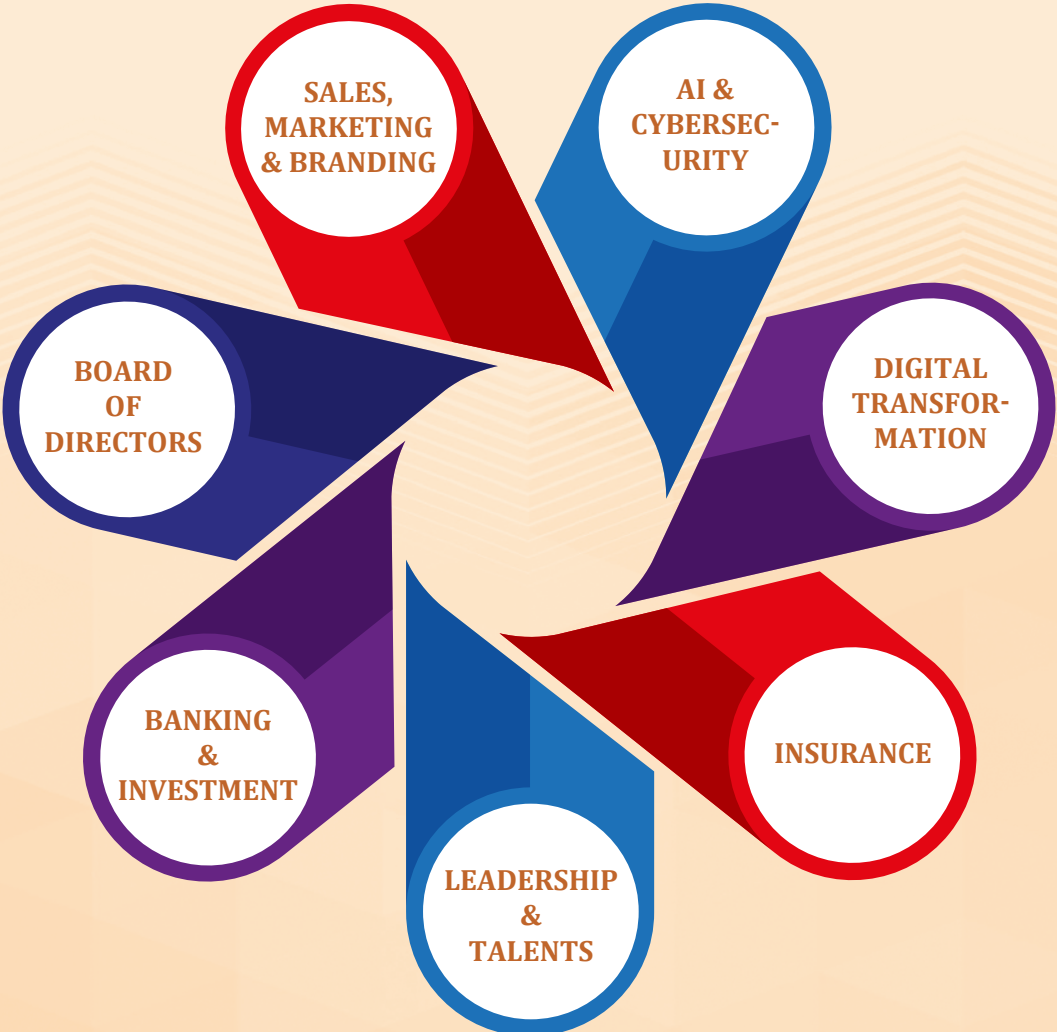

In TORCH HOLDERS LEARNING CENTER, we bring to life some real stories where I was leading learning processes, and several events where I was part of the learning audience of academic, professional, and real case-study events in the GCC, EU, and US. over the last two decades.

I hope that you find in the “LEARNING CLUB” mentality, which we are coming up with, the missing torch to learn and grow in professional and personal aspects.
